Timeline

Catch the Final FSGS CT Recruitment Wave!!

Be a part of our recruitment crescendo! Twenty-one patients have been randomized in the last 6 months.

We would love to have 150 randomized patients by the end of the trial. That would require only 19 more patients, or only 6.33 from each core!

The tide is still coming in....but the **last day for enrollment, March 31st**, is coming fast. Please help us reach this recruitment goal!

Looking Ahead!

March 31, 2008:

Last day for enrollment

April 30, 2008:

Last day to randomize

October 31, 2009:

End of follow-up

WELCOME ABOARD to our 11th Hour Heroes!

Thanks to all our sites who have randomized their first patient in the study since September 2007:

213 - Case Western Reserve, Internal Medicine Nephrology

245 - Southeastern Neph Associates Wilmington (2 patients!)

270 - Texas Tech University HSC

502 - Children's Hospital, British Columbia

Also, a special welcome to site **405, Children's Hospital, Pittsburgh**, and site **272, Renal Associates of Western MI**. These new sites are now "ready to enroll".

And of course, thanks to the tried and true sites who continue to be diligent in the enrollment of new clinical trial patients!
